

Título del Proyecto	European registry and network for Intoxication type Metabolic Diseases - E-IMD
Nº de expediente asignado	Agreement nº 2012-12-01
Abstract	<p>The European registry and network for Intoxication type Metabolic Diseases (E-IMD) has been co-funded by the European Union (via the European Agency for Health and Consumers [EAHC]; agreement no. 2010 12 01) from 1st January 2011 to 30th April 2014, in the framework of the Health Programme 2008-2013.</p> <p>E-IMD has established a patient-based registry (https://www.eimd-registry.org) including comprehensive basic and follow-up data of more than 1100 patients with organic acidurias (more than 700) or urea cycle disorders (more than 400), has published evidence based clinical care guidelines and original research articles for these diseases, has established a website as major instrument for dissemination including the provision of electronic information brochures for patients, families and healthcare professionals in different languages (http://www.e-imd.org) and provides data for post-authorization safety studies (PASS) of orphan drugs, among other activities.</p> <p>After the EU funding period has ended, E-IMD Partners and Members have continued with these activities within the legal framework of a collaboration agreement, sustaining the E-IMD network, its instruments and activities as a scientific consortium encompassing over 40 metabolic expert centers throughout Europe and worldwide.</p>
Entidad Financiadora	European Union - European Agency for Health and Consumers (EAHC)
Convocatoria:	EU Health Programme 2008-2013
Importe de la ayuda	95.820€

Fechas de ejecución del proyecto	01/01/2011-30/04/2014
